The online material of the facilitator training will be recorded, it is an important part of the training as it allows us to learn from the sessions without interrupting the flow in real time but enable us to look back over parts of sessions for deeper learning.

The record material is just for access for this group (unless otherwise specified).

For access to the online material I use a platform called Thinkific <https://www.thinkific.com/>

You will all get a unique login and password (soon).

You log into the Thinkific learning hub to

- download written course material
- see and fill in course requirements
- upload completed course exercises (as part of the course)
- View recordings of the online sessions
 - o If you missed a session
 - o Want to review a session to write notes
- I might use snippets of sessions as teaching pieces to highlight certain things to the group. This will then be shown in live online session or put in learning hub for people to watch in own time
- The videos can only be watched in the learning hub, not downloadable.

This material and access is only for the 12 month duration of the course.

New training courses will have different access for the participants of that course, viewing their own material.

The first section of the form below relates to the recording of the 10 week online sessions and coaching sessions we do together. To allow free flowing interaction, comments and learning it will be hard to cut people out which is why it was stated up front at registration that the sessions would be recorded before you join.

The 2nd section of the form is If there is any comments or feedback I can use for promoting the next training course. I will show you the recorded section and ask if you are ok with me using it, to put on my website/socials etc but they will be specific for promoting the course. I would check and show you first.

Or if there is a particular piece that was great at highlighting something I might ask (I would check first) if I may use it to show people in other courses.

- These would again just be in the Thinkific portal but shown to another group. Not to general public.
